DETAILED ACTION

1. Upon review of applicants RCE with the amendment 6/5/2008, a restriction/election of the claims is warranted.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 28-35, drawn to a product, classified in class 369, subclass 30.01.
 - II. Claims 42-49, drawn to a process, classified in class 701, subclass 200.
2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case, the product as claimed can be used in a process of instructing Internet users accessing and using flight plan from Internet source using a browser such as Internet explorer or Netscape.
 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
